INSTALLATION INSTRUCTIONS

FOR OUTSIDE MOUNTS:

- Mount brackets and install track only.
- Stack vanes within reach of window.
- Leave valance for last.
- Install sheer following steps below.

FOR INSIDE MOUNTS:

- Mount brackets through valance into jamb or ceiling.
- Install track only.
- Stack vanes within reach of window.
- Install sheer following the steps below.

STEP 1 (See Fig. 1)

- Starting with second vertical slat, insert it into second receiving pocket of sheer, then attach it to the track.
- The stem of the carrier should slide through the gap in sheer and attach to vane.
- Continue this procedure until all but the first and last pockets of sheer are attached to the track.

STEP 2 (See Fig. 2)

- For the first and last slats, the receiving pockets of the sheer are slightly different. The sheer will totally enclose these slats.
- If the stem of the carrier does not slide through the sheer and attach to the vane, the slat is inserted into the pocket incorrectly.

STEP 3 (See Fig. 3)

- After all tops of slats are inserted, place the bottoms of the slats into corresponding spaces in the bottom of the sheer.
- If necessary, steam out any wrinkles.
Do not touch the fabric with an iron.

ATTENTION:

To ensure proper closing of split draw (center opening) Vert-a-Sheers®, tabs are sewn into the material at the top of the sheer. Please identify the tab on each half of the sheer, and install the sheer so that these tabs are facing the center (where the Vert-a-Sheer® opens).

Sheer Fabric Vertical Blind**CARE & CLEANING**

To ensure its lasting beauty, Vert-a-Sheer® is manufactured with only the finest materials designed for safe washing.

All Vert-a-Sheer's® are constructed of durable and dimensionally stable 100% polyester yarn. (Note: Embassy pattern is 8% cotton, but it is still washable).

These yarns are then weaved and heat-set twice by the mill so that no amount of washing can make them stretch or shrink.

Finally the fabric is treated to repel deep soiling, and with the periodic washing, surface dirt can be easily removed.

TO WASH VERT-A-SHEER®

Follow these simple steps:

STEP 1 - Remove the sheer carefully by detaching vertical vanes from track system. All vertical vanes should then be re-attached, without the fabric, to the track system to maintain privacy, and for ease of re-installation.

STEP 2 - Although dry cleaning is recommended, hand washing is also acceptable. Place sheer in bath tub and gently wash using a mild detergent. Rinse and remove excess water.

STEP 3 - Install sheer back on vertical blind and allow to hang dry.

DO'S AND DON'TS

- **DO NOT** machine dry polyester fabrics! When heated metal touches polyester, permanent wrinkles can form.
- **DO NOT** press polyester with an iron! Again, hot metal can form permanent wrinkles.
- **DO** steam polyester! Steam will help remove any wrinkles left over from washing.

WARRANTY**LIFETIME LIMITED WARRANTY**

Vert-a-Sheers carry a lifetime limited warranty that covers the blinds for as long as the original retail purchaser owns them, provided that the blinds were properly installed. It's the customer's assurance of satisfaction and quality.
