Maximum width of shade will be 2" less than fabric width listed above.

The following fabrics are available in widths larger than listed above as special order only:

- Panta Flex Matte White, Fawn, Beige, Grey .....126"
- M Screen 3% & 5% .....122"
- E Screen 1%, 3% & 10%.....122"
- E Screen 5% .....120"

Worldwide offers the entire Mermet™ Product Line. If product is not listed above please call for pricing and availability.

Minimum width for Spring Roller shade is 18"

Anytime material is railroaded, there is a possibility of fabric curling as most fabrics memorize the curvature of the fabric roll. Eventually the fabric will relax after installation.

Railroading of screen shades is not recommended or covered by warranty, however Worldwide will railroad screen shades if retailer waives warranty.

\*\* Not available with Scallop or Gimp

**NO CHARGE OPTIONS:**

**Control:**

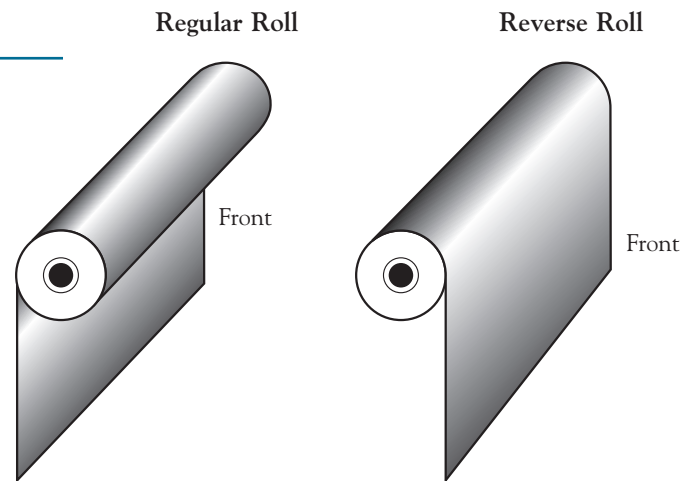

- Standard Spring Roller or Standard Clutch Control
- Control Left or Right

**2" Extension Brackets:**

- Standard & Heavy Duty Clutch
- Spring Roller

**Reverse Roll:**

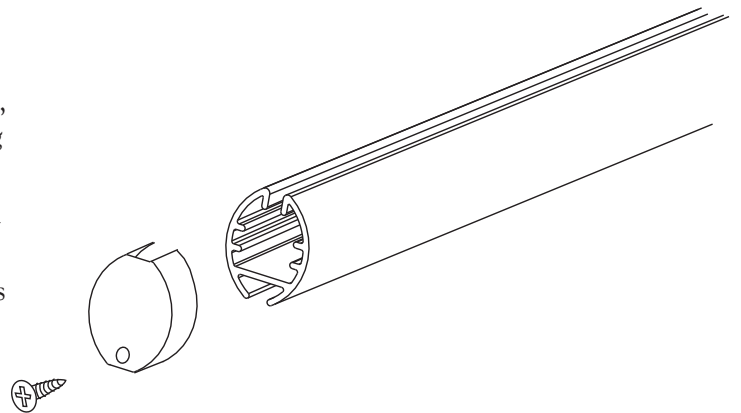

- Fabric rolls off the front of the shade
- Not available on Cassette and Fascia Systems

**SURCHARGE OPTIONS:**

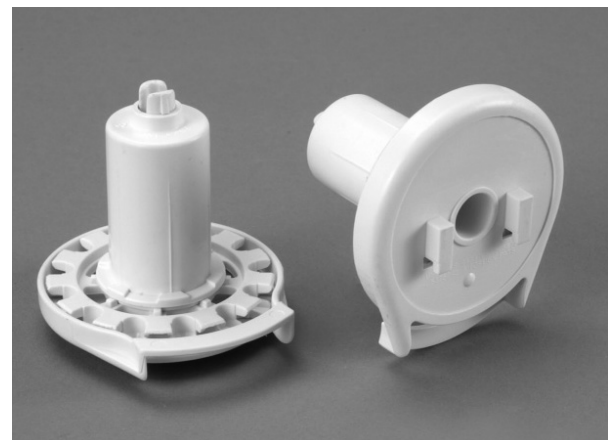

**Rounded Metal Bottom Bar**

- Aluminum Bottom Bars are available in four colors, white, vanilla, black, and brown, with coordinating plastic end caps.
- Clutch components and chain will coordinate with bottom bar.
- For a sleek appearance fabric wrapped bottom bar is available at the same price as exposed bottom bar.
- Not available with Hem Style A
- Maximum width: 144"

**Heavy Duty Clutch System**

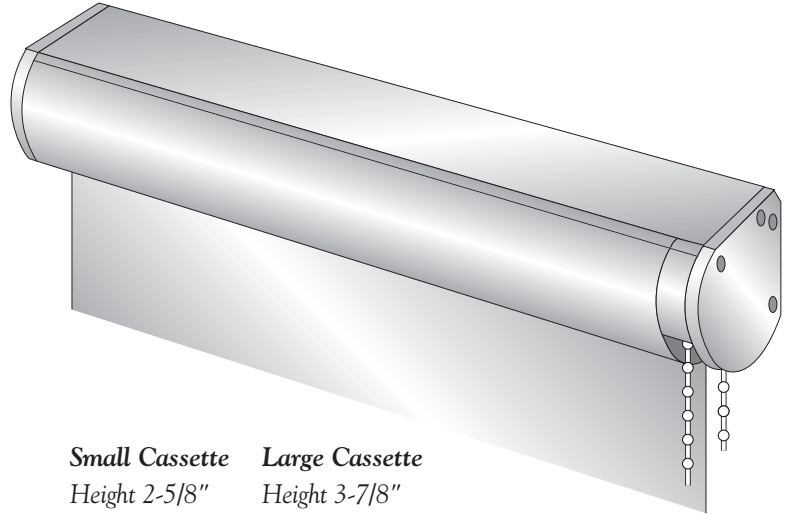

- Superior clutch system available in 2 clutch sizes.
- Plastic bead chain is color coordinated to fabric color.
- Color coordinated bracket covers are included.
- Supplied with 1 ¼", 1 ½", or 2" aluminum tubes depending on size and weight of shade.
- Multiple shades available with single control.

**SURCHARGE OPTIONS (CONT'D):**

**Cassette System**

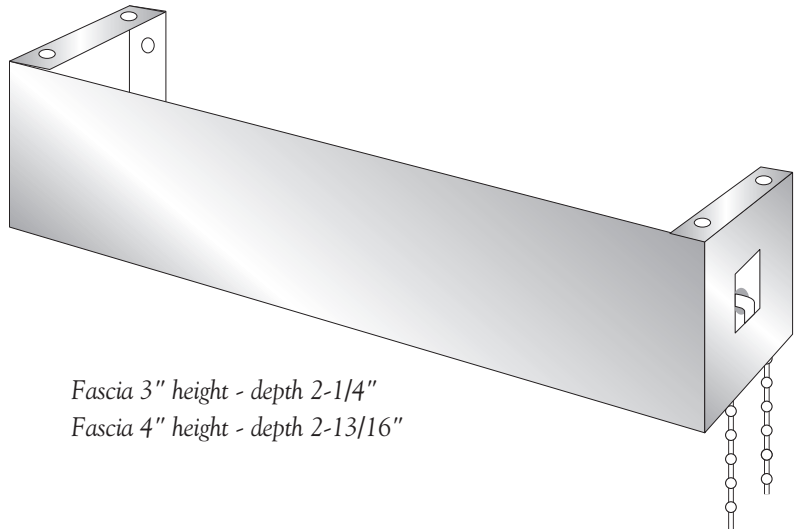

- Heavy Duty Clutch is **required**. Choose from color coordinated plastic bead chain or nickel-plated steel chain.
- Cassette System is supplied with matching fabric insert.
- Shade is completely concealed from view
- Installs easily with universal mounting brackets
- Minimum Width: 18"
- Maximum Width: 190"

<b>Small Cassette</b>	<b>Large Cassette</b>
Height 2-5/8"	Height 3-7/8"
Depth 2-3/8"	Depth 3-3/4"

**Fascia System**

- Heavy Duty Clutch is **required**. Choose from color coordinated plastic bead chain or nickel-plated steel chain.
- End cap and bracket all in one unit.
- Available in 3" & 4"
- Available in five colors, white, vanilla, bronze, black, and anodized.
- Ideal for commercial installations
- Will accommodate heavy fabrics such as screens and blackouts
- Maximum width is 165"

Fascia 3" height - depth 2-1/4"  
Fascia 4" height - depth 2-13/16"

*IB measurements factory will deduct 1/4"*

*OB measurements factory will make exact measurements ordered.*

**Stainless Steel Chain Available**

Up to 6' .....\$18  
Over 6' .....\$30

**ROLLER SHADE COMPONENTS:**

**STANDARD WORLDWIDE  
CLUTCH AND  
SPRING ASSEMBLY**

**HEAVY DUTY  
WORLDWIDE  
CLUTCH  
ASSEMBLY**

New Tension Device Compliant with the WCMA revision to the AMERICAN NATIONAL STANDARD FOR SAFETY OF CORDED WINDOW COVERING PRODUCTS, Section 6.5. Tension device will be supplied with all clutch roller shades. To operate the shade, the tension device must be mounted to a flat surface.

Worldwide is using a new patent-pending tension device for bead chain loops that complies with the WCMA-ANSI provisional standard 6.5 that requires a tension device to make the shade partially inoperative unless that tension device is installed.

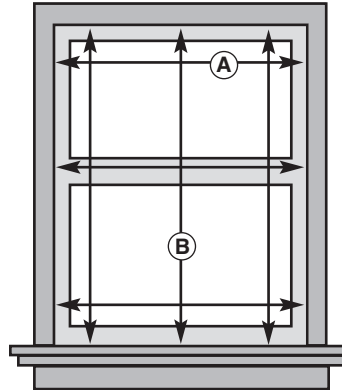

This tension device is designed for bead chain which allows stop balls and/or connectors to pass through and is available in Black, Vanilla and White.

## MEASURING GUIDELINES

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements should be rounded down to the nearest 1/8" to prevent shade from binding against the window casing.

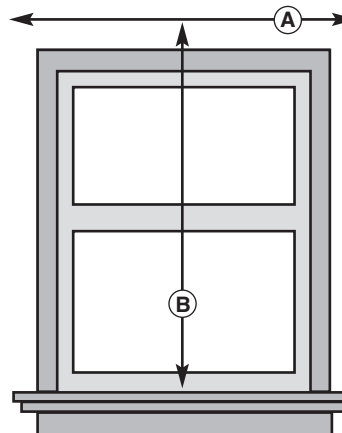

### INSIDE MOUNTING (IB)

- For **Width (A)**, measure across the window casing from one inside edge to the other in three places, top, middle, and bottom. Record the smallest width rounded down to the nearest 1/8".
- For **Length (B)**, measure the inside area from the top inside edge down to the top of the sill in three places, left, middle and right. Record the longest length rounded up to the nearest 1/8".
- The factory will make all the necessary deductions for inside mount.

### OUTSIDE MOUNTING (OB)

- For **Width (A)**, measure from one edge of the casing to the other. Record the measurement rounded up to the nearest 1/8".
- For **Length (B)**, measure from the top of the window sill up to the desired top of the shade. Again, record the measurements rounded up to the nearest 1/8".
- Outside mounted shades are fabricated to order dimensions.

## CARE & CLEANING

### ROUTINE CLEANING

Roller Shades are easy to care for. Occasional dusting with a feather duster or low suction vacuuming with a brush attachment is all that is needed to keep these blinds looking like new. They may also be gently cleaned with a soft cloth using an over-the-counter blind cleaner.

## WARRANTY

### LIFETIME LIMITED WARRANTY

Roller Shades carry a lifetime limited warranty that covers the blinds for as long as the original retail purchaser owns them, provided that the blinds were properly installed. It's the customer's assurance of satisfaction and quality.
